With humble beginnings, Hammoudeh established his first plant in partnership with Provimi Holland, which reached a capacity of 5 metric tonnes per hour of ready-made feed.

The birth and rise of this establishment opened the door to see Hammoudeh become a leading Jordanian name in agriculture and animal feed products. His experience and enthusiasm for the chemical trading industry was not a thing of the past. He soon after decided to expand his business into the chemical sector, making Hammoudeh the primary agent and distributor for Imperial Chemical Industries (ICI).
