KHUDARI

AL KHUDARI STORY

Stemming from a long line of generations of entrepreneurs, Adnan Al Khudari had it in his blood to fill a gap in the market and make something of his own.

Fleeing war in the seventies, he came to Jordan to start the idea of pre-packed spices and food items in the region.

They grinded and packed their own spices and pre-filled bottles of orange blossom and rose water going door-to-door to customers.

Over the years, what began as a small family company run by brothers in the kitchen, flourished and became the largest leading spice and pulse manufacturer in Jordan.

Today, the Blue Mill Company, named after the company's first major investment, a blue grinder; our mother company offers a wide range of spices, vinegars, rose and flower waters, herbal teas, pulses, concentrated syrups, and many more items all over the world from Australia, Europe, USA, and the MENA region.

OUR PHILOSOPHY

Our philosophy is to aim for the best quality for our customers, employees, stakeholders and family members alike.

We believe in giving our customer a quality service alongside a quality product; from production, to packaging, to delivery and beyond.

Our customer-buyer relationship goes beyond delivery as we aim to keep a line of communication open to ensure customer satisfaction.

In the product analysis we adopt a high degree of accuracy, standardization and quality evaluation of the ingredients and recipes.

Our quality control department is well equipped and our production facility and packaging is per GMP standards.

This is why we only use quality raw materials and quality equipment, employ qualified people and have invested in state-of-the-art facility.
